

## Solutions for optimization of production process for pharmaceutical sector.

- ✓ Filter elements of high efficiency
- ✓ Optimization of production process and its duration
- ✓ Mixtures with low coefficient of variation
- ✓ Purity of final products free of contaminants.
- ✓ Emission control and prevention of product loss during the manufacturing process.

- “Lungs” bags
- Transition and collection bags
- Bags for vacuum chargers
- For fluid bed dryers:
  - Bags (“utters”)
  - Sleeves
  - Cartridges
  - Inox multi-layer pleated elements
- Star-bags
- Multi-pocket bags
- Bags for vacuum cleaners
